## INC RESEARCH

### INC RESEARCH DELIVERS THERAPEUTIC FORESIGHT AND TRUSTED RESULTS:

INC Research, a global contract research organization, invests in its customers' success with proven therapeutic foresight and a trusted approach to advance drug and device development. The company's Trusted Process™ method of conducting Phase I - Phase IV trials means its customers experience certain trial excellence, helping to minimize potential risk factors and leading to more informed and confident development decisions. Its seasoned project managers and clinicians deliver unsurpassed scientific expertise and service in a therapeutically focused environment, as well as in innovative pediatric trials. Pharmaceutical and biotechnology companies look to INC Research for functional outsourcing needs and to conduct complete customized worldwide trials that end with results of the highest integrity.

### THERAPEUTIC EXPERTISE, HIGH PERFORMANCE TEAMS:

The teams at INC Research are built from the brightest people in the industry with years of therapeutically focused and industry-related experience, from our top scientists to our data entry group. It is by continually attracting the industry's most talented individuals that the company has emerged as a leading global CRO. The high percentage of repeat business from customers is a testament to the quality and dedication of the INC Research team.

### CUSTOMIZED SERVICE. FLEXIBLE APPROACH:

A customer-centric focus is a clear, common objective across the entire INC Research organization. Its full range of services, processes and technology are tailored to the unique needs of each client and their specific project requirements. For Phase I-IV clinical trials, INC Research provides:

### THERAPEUTIC EXPERTISE:

- Central Nervous System
- Oncology
- Infectious Disease

### GLOBAL SERVICES:

- Cognitive Services
- Data Management & Biostatistics
- Functional Outsourcing
- Late Phase Services
- Medical Monitoring & Drug Safety
- Patient Recruitment & Retention
- Pediatrics
- Product Development
- Project Management
- Quality Assurance
- Regulatory Services
- Study Monitoring

Whether the scope of your project is a full-service international study or requires only select regional services, INC Research can meet your needs.

### GLOBAL PRESENCE:

INC Research works from 24 offices across North America, Central, Eastern and Western Europe, as well as India. The company has the global capabilities to deploy a study on any scale - on six continents.
